Inner Carton
- Inner carton (L x W x H): 28.5 x 14.5 x 12 cm
- Nett weight: .5 kg
- Gross weight: .83 kg
- Tare weight: .33 kg

Highlights

Digital dash key
Regardless of make or model of the new digital television you just bought, or one you have owned for some time, you want to enjoy the great picture, on all channels. With the dash (-) key, you get access to all digital channels to enjoy for may years.

Full DVD, DVR, and SAT
Match the correct buttons with your lost or replacement remote with advanced DVD keys such as angle, zoom, subtitle, open/close, repeat, and title. For SAT you need guide, info, select, OK, scroll keys, quit, and menu. For DVR, play, fast forward, stop, record, T Central, thumbs up/down, chapter scan, and repeat.

Light up every button
Back lighting is great except some times the light is not spread correctly across the key pad. Hot spots tend to light up some keys, and others appear dull. EL spreads the light evenly across the entire keypad.

Many more buttons for DVR
If you have a DVR, whether free standing or included in a set top box, our remotes have the standard set of buttons in order to properly operate the DVR. This includes all the standard, play, stop, fast forward etc., along with T central, thumbs up/down, volume up/down and repeat.

Silver with black trim
Do you want a blue remote when you have an expensive piano black finish LCD flat screen? No, you want a piano black remote that matches your components. These remotes come in colors that match current component trends, like silver, black, silver and black, and a high gloss piano black finish.
